

Bounders Friday Programs- Fall 2011

Overview:

This fall the Bounders Program is providing new opportunities for Carroll's Lower School Students. We have developed half-day experiences that will be offered on select Friday afternoons for select age groups. Your child is a great fit for these programs if they would be interested in: playing in the woods, rock climbing, and learning basic outdoor survival skills.

These trips are managed by the Bounders department and they are separate from the existing Carroll Friday Program. If your child is already signed up for a Friday Program, but want's to switch to a Bounders program contact Lower School Bounders Instructor Scott Fairley (sfairley@carrollschool.org). Attached you will find a registration sheet that should be sent to Carroll's Business Office by October 7th.
