- Add a ninth grade program to focus on the transition to high school.
- Develop our athletics/movement program substantially through the use of the full-size gymnasium and reclaim field on Lincoln campus.
- Eliminate current space constraints that currently limit our program.
- Positively transform Carroll's economic model.
- Provide better quality and more appropriate tutoring space.
- Expand after school programs to meet students' educational needs including language tutorial, speech-language services, cognitive development, counseling, and occupational therapy.
