Incoming 6th Graders Summer Work 2023

Read Home of the Brave and
complete the project!

- Purchase of this book is NOT required. It is available at local libraries and in the following forms: hard copy, paperback, and Kindle.
- If your child exhibits any difficulty decoding and/or comprehending this book, reading it aloud with him or her or choosing an option such as an audio version is perfectly acceptable.
- In addition to reading the book, students are required to complete a project related to *Home of the Brave*. Sometime during the first several weeks of school, students will informally present their projects to the teacher and students in their ELA classes. They do not need to bring their projects on the first day of school. To read more information about the project, [click here](#).

Entering 6th **OPTIONAL** Summer Assignment: MATH

The following slides outline the guidelines for Carroll's summer math assignment.

Students can work on the packet or in one of the math games for a total of 20 minutes of practice per week.

Available options:

1. [Math Packet](#) - does not need to be completed
2. [Math Games](#) - login not required

**Packet and Games PDF
given out by teacher or email
abenway@carrollschool.org**
