## Directions:

- Print two copies of the board.
- Set up in a spot where the two players CANNOT see each other's boards.
- Each player chooses three words from the word list (words on the chart that have a white background) and writes one word in each blue box.
- On your turn ask your opponent "Is your word \_\_\_\_\_?"
  - If your opponent says "YES" then circle that word on the word list.
  - If your opponent says "NO" then put an X on that word on the word list.
- When it is your opponent's turn they will ask you "Is your word \_\_\_\_\_?"
  - If they guessed your word, you say "Yes, my word is \_\_\_\_\_." Then circle the word in the blue box so you know your opponent found that word.
  - If your opponent did not guess your word you would say "My word is not \_\_\_\_\_." You DO NOT make any marks on your board if your opponent didn't guess your word.
